GDGEL-283B RHEOLOGICAL ADDITIVE

Description

GDGEL-283B is an organo clay (modified montmorillonite), designed especially for use in solvent based system including intermediate and low polarity polarity range organic liquid. It is an improved grade of GDGEL-283B. It is more fine, and easier to be dispersed compared with GDGEL-283.

Properties

Composition Organic derivative of a montmorillonite clay

Appearance Fine powder, light yellow

Moisture content (105 °C,2hr) \leq 3.5% Loss on ignition (1000 °C) 40% Max Bulk density 0.46g/cm3 Fineness (<74 μ m, %) \geq 98%

• Exerts gelling efficiency over a wide range of intermediate and low polarity

Advantages

- Easy dispersingThe gel is colourless and of high clarity
- Produce reproducible thixotropic consistency over a wide temperature range
- Imparts particle suspension, sag resistance without impairing flow and leveling, preventing hard settling of pigment and fillers
- Exerts strong film reinforcing action in organic binder systems

Application

- Transparent coatings
- Lubricant Grease, ink, sealant
- Nano-composite
- Replacement of fumed silica
- Cosmetic

Using

GDGEL-283B disperses under high shear and requires a polar activator (30%~40%) for best efficiency. Heat is not required to obtain good dispersion. Addition levels are typically in 0.2%~2.0%. Polar activator (95% Ethanol or 95% Methanol) is needed. Normally addition level of polar activator is recommended to be 30%~40% of GDGEL-283B in weight.

Package &Storage

Kraft paper bag with PE liner or multi-wall paper sacks or customized. 25kg/bag or 50LB/bag or customized. GDGEL-283B has a shelf life of 24 months, and should be stored in ventilated cool and dry place.

Notice

The information on use is based on data which are believed reliable, but any recommendation or suggestion made is without guarantee or warranty, since the conditions of use are outside our control. All products are sold on the conditions that purchasers shall make their own tests to determine the suitability of such products for their purpose and that all risks are assumed by user. We disclaim any responsibility for damages resulting from careless or improper handling or use. Nothing herein is to be taken as permission, inducement or recommendation to practice any patented invention without a license.
